

ready for PLATFORM

UNLEASH THE POWER OF YOUR SMARTPHONE

Your Motorola smartphone has power just waiting to be unleashed. That's why there's **Ready For**, which amplifies everything your phone is capable of. All it takes is a simple connection to unleash your smartphone's potential and feel like you're right in the room during video calls, and use your apps on a desktop display, giving you more space to work and play.*

What do you need?

First of all you will need a compatible Motorola device:
Moto G100 and

First time Connection

Monitor will start displaying contents immediately after it receives video signals from phone.

1. Welcome to Mobile desktop

Mobile desktop lets you connect your phone to an external monitor for easy remote work, eLearning, and more.

2. Choose your experience

You can choose between a desktop view or a mirror of your phone screen. Switch modes anytime by tapping on the notification on your phone.

3. Accessories

Connect a keyboard and mouse for the best experience. If you don't have a mouse, your phone screen will turn into a trackpad.

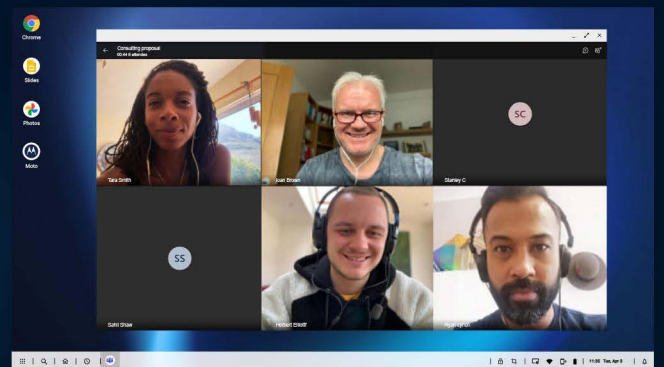

4. Switching display modes

Switch from extended to mirror mode anytime by tapping on the notification on your phone.

Ready For: SIMPLICITY Simply do more

All it takes is a simple connection to unleash your smartphone's potential. Plug in a USB-C cable to an external display and it opens up—just like that. No need to download software, change settings, or even open an app.

Multi-task like never before

Use your Motorola smartphone and all its apps on an external monitor. Connect a Bluetooth® keyboard and mouse³ for a complete desktop experience. Just plug it in to create an uncluttered workspace with a clear view of multiple windows at once. Compose and send email faster. Edit photos and videos easier. Enjoy a bigger view of everything you do.

Keep everyone in frame

Enhance your video calls by moving them to a big screen TV so it feels like you're right there in the same room.⁴ With Ready For, use the ultra high-res camera on your Motorola smartphone instead of the selfie cam. Smart software even tracks movement and always keeps everyone in the frame⁶.

1 - Motorola Edge+ with Android 11. 2 - Video-enabled USB-C cable or USB-C-to-HDMI cable required; TV or monitor must have HDMI port or USB-C video-in port. 3 - Sold separately. 4 - Video-enabled USB-C cable or USB-C-to-HDMI adaptor required; TV or monitor must have HDMI port or USB-C video-in port. 5 - 5G service plan and 5G network coverage required; available only in select areas; device not compatible with all 5G networks, coverage/compatibility may be expanded to additional areas in the future. Contact your service provider for details. 6 - Smart software can recognize up to 3 faces/people in the same frame.
